

FAST FACTS ABOUT ENERSINE®

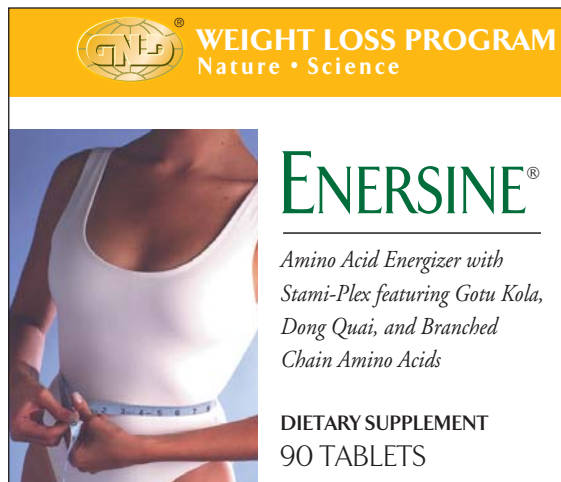

Calorie-restricted diets may contribute to feeling listless or tired as the body conserves energy. GNLD's Enersine supplies a unique blend of free-form amino acids, minerals, and herbs to support the body functions of energy production, carbohydrate conversion, fat utilization, and neurotransmission.

WHY AN AMINO ACID SUPPLEMENT FOR ENERGY?

- **Free-form amino acids are readily absorbable by the body.** Neither mechanical breakdown (by chewing and stomach churning) nor chemical breakdown (by enzymes and stomach acid) is needed to make the nutrients available for metabolic use.
- **Free-form amino acids can be used for energy.** Rapid absorption makes amino acids highly available for gluconeogenesis, or the formation of energy from non-glucose precursors such as fat or proteins.

WHY GNLD ENERSINE?

- **100% natural free-form amino acids** — L-tyrosine, L-ornithine, L-valine, L-lysine, L-leucine, and L-isoleucine for rapid absorption and utilization.
- **Provides tyrosine**, a crucial precursor for the manufacture of the neurotransmitters dopamine, epinephrine, and norepinephrine.
- **Supports proper creation and utilization of glucose** (blood sugar) from non-glucose amino acid precursors.
- **Supports and sustains vitality and stamina** with chickweed, Gotu Kola, and Dong Quai, herbs known for their support of energy.
- **Provides highly absorbable metabolic electrolytes.** Includes calcium, magnesium, potassium, and zinc to support the functions of nerves and muscles, energy production, biosynthesis, and metabolism.

Supplement Facts	
Serving Size 3 Tablets	
Servings Per Container 30	
Amount Per Serving	
L-Tyrosine	450 mg*
L-Ornithine (as L-ornithine hydrochloride)	300 mg*
Stami-Plex Herb and Chelated Mineral Blend	1788 mg*
Dicalcium Phosphate; Gotu Kola (<i>Centella asiatica</i>) (leaf); Potassium Carbonate; Magnesium Oxide; L-Lysine (as L-lysine hydrochloride); L-Valine; L-Leucine; L-Isoleucine; Zinc Sulfate; Chickweed Powder (<i>Stellaria media</i>) (whole plant); Dong Quai (<i>Angelica sinensis</i>) (root).	
* Daily Value not established	
Other ingredients: Powdered cellulose, stearic acid, magnesium stearate and silicon dioxide.

	Best If Used By
	107

SUGGESTED USE: 3 tablets in the morning upon rising. For best results, take approximately 30 minutes prior to one of GNLD's Daily Vitality Pack products and your morning meal.

Tyrosine and ornithine are important components of efficient metabolism. Tyrosine is also a crucial precursor for the body's manufacture of several neurotransmitters and energy regulating hormones.*
