

FAST FACTS ABOUT NCB

NCB NATURAL CLEANING BOOSTER

SOFTENS AND CONDITIONS WATER

If you've ever wanted to add more cleaning power to water — especially hard water — or give an extra boost to your regular cleaner to help get out extra stubborn stains or dirt, NCB is what you've been looking for. This 100% organic cleaning booster makes any detergent or liquid cleaner go farther, last longer and do a better job.

HOW IS NCB UNIQUE?

NCB is a GNLD biocatalytic formula containing GNLD's scientifically selected, natural and organic ingredient, biazyme, which accelerates the cleaning process.

NCB is an extremely powerful emulsifying agent. It breaks down water-resistant, nonsoluble fats, oils, and impurities so they mix with water and can be rinsed away. NCB helps retard yellowing or greying of clothes and leaves them sunshine fresh. It is 100% organic and phosphate-free.

HOW IT WORKS

NCB works by conditioning water. It contains a mild, effective "chelating" agent that captures hard water ions to multiply the cleaning efficiency of any cleaner or laundry compound.

WHY CUSTOMERS NEED NCB

- **Biocatalytic formula.** Contains Biazyme, biologically active enzyme, for accelerated cleaning power.
- **Versatile & economical.** Makes cleaners, soaps and laundry powders go farther, do a better cleaning job.
- **Promotes brightness.** Helps prevent yellowing, greying of clothes over repeated washings.
- **Pleasant, fresh fragrance.** Leaves clothes smelling sunshine fresh.
- **100% biodegradable, phosphate-free**

NCB makes an ideal mate for phosphate-free laundry powders, because it brightens clothes. It's also excellent to loosen stubborn spots and stains and eliminate the need for harsh bleaches. Not only does it make any detergent or soap go farther, NCB also is beneficial for personal use. For example, a few drops in bath water makes skin feel silky soft, and no residue ring is left around the tub!

Kitchen: Add a little to LDC to eliminate spotting of drain-dried dishes and glassware.

Bath: Add a few drops to bath water for silky skin feeling and no bathtub ring.

Laundry: Boosts cleaning power to handle grimy, greasy work clothes. Removes stains, discolorations, color "rings." Helps prevent yellowing; restores whiteness and brightness. Works in all types of water.

Garage: Use with Super 10 for extra tough chores.

HOW TO USE NCB:

General Household (except windows): Add 1/2 to 1 oz. of NCB to any dilution of Super 10; use in 24 oz. trigger spray bottle.

Laundry: Hard water and extra-hard water: add 1/2 to 1 oz. of NCB. Use full strength on spots and stains, discolorations.

Natural Cleaning Booster (N-C-B)

softens and conditions water

**WHITENS, BRIGHTENS LAUNDRY
ELIMINATES SPOTTING ON DISHES
SOFTENS SKIN**

Use N-C-B with all cleaning agents to get a cleaning boost. Softens and conditions water, especially hard water, so cleaners work better and last longer. Laundry is whiter, colors are brighter. Add N-C-B to dishwashing water for sparkling, spot-free dishes and glassware. Add N-C-B to bath water to leave skin feeling silky smooth. Biocatalytic: Contains GNLD's exclusive Biazyme (Biologically Active Enzyme).

Laundry: Add 1/2 to 1 oz. to washwater, especially hard and extra hard water. Boosts cleaning power for grimy, greasy work clothes. Helps remove stains, discolorations. Helps prevent yellowing, restores whiteness and brightness.

Bath: A few drops in bath water leaves skin silky; no bathtub ring.

Keep out of reach of children.
