

Many who consider themselves active or are on the journey to becoming more fit, choose to do so with a goal or vision in mind. Whether it's to be more toned, have more energy or get physically stronger, a well-functioning metabolism is key to efficient muscle building and recovery.

Exclusive Neolife SPORT Bio-Tone provides specific free-form amino acids and lipotropic factors to support muscle retention, lipid mobilization, lean tissue development, and overall body tissue toning. These nutrients also support efficient metabolism and the production of nitric oxide, which supports the body's metabolic processes by relaxing blood vessels and supporting blood flow.*

Bio-Tone's combination of amino acids is involved in the body's metabolic processes including lean tissue development and lipid mobilization, and our added Special Factors Blend with lipotropic factors choline and inositol helps balance lipid utilization.*

Neolife Scientific
Advisory Board

#3280 – 120 Tablets

Support for Recovery and Metabolism with Amino Acids

Certain nutrients help support lipid mobilization and lean muscle retention.*

Creating specific amino acid ratios in the bloodstream may support the body's ability to biosynthesize important neurochemicals involved in healthy metabolism.*

Our Solution: Neolife SPORT Bio-Tone

100% natural free-form amino acids include L-arginine, L-ornithine, and L-tyrosine.

Supports muscle retention and lipid mobilization.

Amino acids support lean tissue development while lipotropic factors aid mobilization and utilization of fats.*

Designed to work while you sleep. Taken three hours after your last meal and before bedtime, Bio-Tone allows for increases in blood levels of specific amino acids in the absence of competing amino acids.

Supports restful sleep by providing calcium to help relax the nervous system.*

May help you get more out of your workout.

SUGGESTED USE: 4 tablets in the evening at bed time.
For best results, take on an empty stomach (approximately 3 hours after a meal).

Supplement Facts

Serving Size: 4 Tablets Servings Per Container: 30

	Amount Per Serving
L-arginine hydrochloride	900 mg †
L-ornithine hydrochloride	440 mg †
L-tyrosine	300 mg †
Special Factors Blend	420 mg †
Dicalcium phosphate; Inositol; Choline bitartrate.	

† Daily Value not established

OTHER INGREDIENTS: Hydroxypropyl methylcellulose, stearic acid, magnesium stearate, silicon dioxide, food glaze and magnesium silicate.

Nutrients important for efficient metabolism and the production of nitric oxide, which supports the body's metabolic processes by relaxing blood vessels & supporting blood flow.*

Bio-Tone's combination of amino acids is involved in the body's metabolic processes (including fat mobilization) and our added Special Factors Blend with lipotropic factors choline and inositol helps balance fat utilization.*

Store in a cool, dry place, away from direct sunlight.

Packaged with safety seal.

NeoLife products use only GMO-free ingredients.
